Preface

In the 1920's Richard C. Cabot conceived of clinical pastoral education (CPE) as a method of learning pastoral practice in a clinical setting under supervision. Anton T. Boisen enlarged the concept to include a case study method of theological inquiry -- a study of "living human documents." William S. Keller began supervising theological students in case study methods, believing pastoral practice was complete only as it addressed contributing social conditions. As CPE developed, other leaders integrated knowledge from medicine, psychology and other behavioral sciences into pastoral practice. (See www.acpe.edu/WhoWeAreHistory.html)

The Association for Clinical Pastoral Education, Inc. (ACPE) formed in 1967 after some forty years of experience, development and practice of clinical pastoral education by several organized but uncoordinated groups. The groups merging to form ACPE included the Council for Clinical Training of Theological Students, the Institute of Pastoral Care, Inc., the Lutheran Advisory Council on Pastoral Care, and the Southern Baptist Association of Clinical Pastoral Education. Thus ACPE became the standard setting, accrediting and certifying resource agency in the field of clinical pastoral education. It accredits institutions, agencies and parishes as clinical pastoral education centers to offer programs of clinical pastoral education and certifies supervisors to conduct these programs.

ACPE accredited centers offer clinical pastoral education as: part of theological education; training for pastoral ministry; training for institutional chaplaincy; training for pastoral counseling; training for certification as a supervisor of clinical pastoral education; and training for other specialized ministries. Theological schools give academic credit for clinical pastoral education according to the credit system of each school.

Note: *Definition of Terms 2010 Interim Revisions 2015* (www.acpe.edu, manuals section) is an important companion document. Please review it carefully for definitions of relevant terms; they are essential to the use and interpretation of the *ACPE Standards 2010 Interim Revisions 2015*.

Part One -- Introduction

I. Mission and Vision of the Association for Clinical Pastoral Education, Inc. (ACPE)

Mission

Advancing exceptional experience-based theological education and professional practice to heal a hurting world.

Vision

We will be an organization where people of diverse faith traditions, backgrounds, and cultures collaborate to provide innovative experiential education. We will lead in the theory and practice of clinical education for spiritual care. We will promote and broaden the provision of quality professional theological education in a variety of settings.

II. Philosophy for Promulgation of Standards

As a professional association, ACPE has responsibility to the public to define standards of conduct for members and promulgate standards for education and certification in clinical pastoral education to safeguard the public and to help assure quality education for and competence of practitioners.

The Standards provide guidance and direction to ACPE members as to what the association has determined to be sound professional practice. These standards are to be enforced through the peer processes duly adopted by the Association for Clinical Pastoral Education, Inc. for that purpose. Neither the Standards nor processes for accountability to them are designed to provide basis for civil liability or judicatory processes in any other forum.

III. Standards Committee

A. Function and Authority

The Standards Committee, responsible to the ACPE Board of Representatives, recommends to the Board standards for ethical conduct of members, clinical pastoral education (CPE), accreditation of centers to offer programs of CPE, and certification of supervisors. The Board, after considering the recommendations of the Standards Committee, sets the standards for ethical conduct, clinical pastoral education, accreditation of programs to provide CPE, and certification of supervisors.

The Standards Committee develops recommendations for standards based on input from the ACPE Accreditation, Certification and Professional Ethics Commissions, ACPE members, constituents, cognate groups, care recipients, and the public. The Standards Committee also develops mechanisms for feedback and review of the respective Commissions' manuals every five years.

Note: all references to CPE throughout this document are understood to be ACPE accredited Clinical Pastoral Education (ACPE-CPE).

B. Composition

The Standards Committee is comprised of ten members: a representative from each of the nine regions and a chair. Members are elected for a three year term, with one-third elected each year. Members are elected by the Board of Representatives upon nomination by the Representation and Nomination Committee from the candidate(s) suggested by each region.

CONSENT: *Persons participating in an ACPE accreditation, certification, ethics, or appeal process consent to that process as described in relevant ACPE materials and give permission for the disclosure of information and materials from one ACPE process to another ACPE process if, in the determination of ACPE representatives, that should be necessary for ensuring compliance with ACPE standards. When one process makes referral to another, the referring body may be asked for additional information and will be informed of the work of the commission to which the referral was made. The Inter Commission Referral Form is found in the appendices of each Commission's 2010 manual Interim Revisions 2015.*

Part Two -- Standards

Standard 100 Code of Professional Ethics for ACPE Members

Maintenance of high standards of ethical conduct is a responsibility shared by all ACPE members and students.

Any ACPE member may invoke an ethics, accreditation or certification review process when a member's conduct, inside or outside their professional work involves an alleged abuse of power or authority, involves an alleged felony, or is the subject of civil action or discipline in another forum when any of these impinge upon the ability of a member to function effectively and credibly as a CPE supervisor, chaplain or spiritual care provider.

309-319 Objectives and Outcomes of ACPE Accredited Programs

CPE provides theological and professional education using the clinical method of learning in diverse contexts of ministry. ACPE accredits two types of clinical pastoral education programs: CPE (Level I/Level II) and Supervisory CPE. ACPE accredited programs provide a progressive learning experience through a two level curriculum. Level I curriculum outcomes must be satisfactorily addressed prior to admission to Level II. Completion of CPE (Level I/Level II) curriculum outcomes is prerequisite for admission to Supervisory CPE.

309-310 Objectives of CPE (Level I/Level II)

CPE (Level I/Level II) enables pastoral formation, pastoral competence, and pastoral reflection. Some CPE centers offer pastoral specialization(s) as part of their Level II curriculum.

CPE (Level I/Level II) objectives define the scope of the CPE (Level I/Level II) program curricula. Outcomes define the competencies to be developed by students as a result of participating in each of the programs.

Standard 309 The center designs its CPE (Level I/Level II) curriculum to facilitate the students' achievement of the following objectives:

Pastoral Formation

- 309.1 to develop students' awareness of themselves as ministers and of the ways their ministry affects persons.
- 309.2 to develop students' awareness of how their attitudes, values, assumptions, strengths, and weaknesses affect their pastoral care.
- 309.3 to develop students' ability to engage and apply the support, confrontation and clarification of the peer group for the integration of personal attributes and pastoral functioning.

Pastoral Competence

- 309.4 to develop students' awareness and understanding of how persons, social conditions, systems, and structures affect their lives and the lives of others and how to address effectively these issues through their ministry.
- 309.5 to develop students' skills in providing intensive and extensive pastoral care and counseling to persons.
- 309.6 to develop students' ability to make effective use of their religious/spiritual heritage, theological understanding, and knowledge of the behavioral sciences in their pastoral care of persons and groups.
- 309.7 to teach students the pastoral role in professional relationships and how to work effectively as a pastoral member of a multidisciplinary team.
- 309.8 to develop students' capacity to use one's pastoral and prophetic perspectives in preaching, teaching, leadership, management, pastoral care, and pastoral counseling.

Pastoral Reflection

- 309.9 to develop students' understanding and ability to apply the clinical method of learning.
- 309.10 to develop students' abilities to use both individual and group supervision for personal and professional growth, including the capacity to evaluate one's ministry.

Standard 310 Where a pastoral care specialty is offered, the CPE center designs its CPE Level II curriculum to facilitate the students' achievement of the following additional objectives:

310.1 to afford students opportunities to become familiar with and apply relevant theories and methodologies to their ministry specialty.

310.2 to provide students opportunities to formulate and apply their philosophy and methodology for the ministry specialty.

310.3 to provide students opportunities to demonstrate pastoral competence in the practice of the specialty.

311-312 Outcomes of CPE (Level I/Level II) Programs

Standard 311 Outcomes of CPE Level I

The curriculum for CPE Level I addresses the fundamentals of pastoral formation, pastoral competence and pastoral reflection through one or more program units. Satisfactory achievement of Level I outcomes must be documented in the supervisor's evaluation(s).

At the conclusion of CPE Level I students are able to:

Pastoral Formation

311.1 articulate the central themes of their religious heritage and the theological understanding that informs their ministry.

311.2 identify and discuss major life events, relationships and cultural contexts that influence personal identity as expressed in pastoral functioning.

311.3 initiate peer group and supervisory consultation and receive critique about one's ministry practice.

Pastoral Competence

311.4 risk offering appropriate and timely critique.

311.5 recognize relational dynamics within group contexts.

311.6 demonstrate integration of conceptual understandings presented in the curriculum into pastoral practice.

Pastoral Reflection

311.8 use the clinical methods of learning to achieve their educational goals.

311.9 formulate clear and specific goals for continuing pastoral formation with reference to personal strengths and weaknesses.

Standard 312 Outcomes of CPE Level II

The curriculum for CPE Level II addresses the development and integration of pastoral formation, pastoral competence and pastoral reflection to a level of competence that permits students to attain professional certification and/or admission to Supervisory CPE. Level II curriculum involves at least two or more program units of CPE.

The supervisor determines whether the student has completed Level II outcomes based on the student's competence. The supervisor must document completion of Level II outcomes in the student's final evaluation.

At the conclusion of CPE Level II students are able to:

Pastoral Formation

312.1 articulate an understanding of the pastoral role that is congruent with their personal and cultural values, basic assumptions and personhood.

Pastoral Competence

312.9. demonstrate self-supervision through realistic self-evaluation of pastoral functioning.

313 Objectives of Supervisory CPE

Through Supervisory CPE, qualified persons who have demonstrated pastoral, professional and clinical competence will develop competence in the art, theory and practice of supervision of clinical pastoral education.

The objectives of Supervisory CPE define the scope of the Supervisory CPE program curriculum. Outcomes define the competencies that result from a supervisory student's participation in Supervisory CPE programs.

Standard 313 The Supervisory CPE center designs its Supervisory CPE curriculum to facilitate achievement of the following objectives:

313.1 to develop supervisory students' knowledge in theories and methodologies related to CPE supervision drawn from theology, professional and organizational ethics, the behavioral sciences, and adult education.

313.2 to provide students practice in the supervision of CPE under the supervision of an ACPE Supervisor.

313.3 to facilitate students' integration of the theory and practice of CPE supervision in their identity as a person, pastor and educator.

314- 319 Outcomes of Supervisory CPE

Standard 314 Outcomes achieved by Supervisory CPE students accrue in six areas of competency derived from the Supervisory CPE objectives. A successful candidate for certification as ACPE Associate Supervisor demonstrates the following:

Standard 315 Competence as a pastoral supervisor:

317.1.2 supervises students' pastoral work, giving attention to unique patterns of personal and professional development, including the ability to assist students' movement toward pastoral identity.

317.1.3 defines and evaluates students' pastoral and personal resources, and uses supervisory strategies and interventions to facilitate students' learning and development in pastoral care.

317.1.4 assists students in taking responsibility for formulating a learning process and evaluating the results of the learning experience.
